90% of these accidents are caused by human error.

I read a report on ways in which scientists around the world have been trying to artificially control or change the weather.

Driverless cars will be able to drive at speed much closer to each other.

Many cars can already brake automatically.

Basically, due to problems with staff illness in her team, she's behind with her work.

Many cars can already brake automatically when they need to slow down.

I find it difficult to be cheerful when the weather is bad.

Many scientists now agree that climate change has been causing higher temperatures.

These scientists have been exploring various techniques, including cloud seeding, over the past few years.

I hate commuting to work, it's so stressful.

I'll check my diary and will confirm later.

We've won a new contract with the same company.

With us in the studio today we have Neil Clough, our science correspondent.

Rolls-Royce says robo-ships, which won't need any crew, will soon be sailing our seas.

Crops have died from water shortages.

They hope this means a decrease in rainfall.

My own disability, which I have had since birth, means that I will never be able to drive a 'real' car.

Driverless cars are already on the roads in California.

How did you feel before your driving test?

Amazon promises robot drones which will deliver our packages.

Many scientists now agree that climate change has been causing floods and droughts.

This room is very dusty.

Scientists have been exploring another method.

In recent years, there has been a noticeable increase in extreme weather events.

Have you heard about the terrible fires in Australia?

There's going to be a heatwave next week.

I feel absolutely helpless.

Although the problem is very serious, local people have begun to find new and imaginative solutions.

Your car is now in charge: driverless cars are already here.
